A few days subsequent to our last steamer issue, the Colina from Peru arrived with 700,000 lbs Haws—about half refining and balance 000 lbs Haws—about haif refining and balance grocery grades. Competition among the refiners was very great, and the result was its purchase on Saturday last by the San Francisco & Pacific Refinery at an extreme price. On the following day, the Akber arrived from Manila direct with two million pounds for the California Refinery. By this opportune arrival the latter establishment will be enabled to keep running, as they have been all winter. By reason of the above purchase, and imports from Honolulu, the former refinery expects to be able to resume operations for the season in a short time. Competition promises to be very a short time. Competition promises to be very rife throughout 1869, and with liberal shiprife throughout 1889, and with there is no mosts of Crushed now making from domestic Atlantic ports, we are prepared to see low prices for Refined in the spring. We now quote Circle A Crushed, 162@17c: Yellow Ceffee and Golden, 144c. At anction, 2,500 lbs Western Maple sold at 124c. The Peruvian Western Maple sold at 12½c. The Peruvian Raws, per Colimo, were of three grades, and sold as above stated for refinery purpose, at or about 10½c, 11½(£13½c respectively—the latter for grocery grades. On the 28th inst., J. C. Merrill & Co. offered at auction by entalligue, on 30 and 60 days' credit, 2,281 kegs choice Hawaiian Sugar. The weather was unfavorable—wet and rainy—and, withal, the jobbers appeared to have combined together not to bid, although this invoice 'consisted of all the Island Sugar in the market. Still, as the steamer Mestans is hourly expected to arrive from Honolulu with further supplies, the bidding was very slack and the bulk of the offering was withdrawn. About 300 kegs James Makes, No. 1, sold at \$13 32½c; 61 kegs Pioner Mills, \$12 70; 47 kegs Rolon, \$12 67½;

From Hino. -- Somehow the rumor has got current about town, and was near being snapped up by our reporter, that there was January 30th, we clip the following in regard an emption of Kliauca, quite formidable in its character, and that some more heavy shocks of earthquakes had been felt at Hilo We are able to state, on the reliable testimony of Capt. Babcock, arrived thence on Monday last, that although Kilauen was bubbling and boiling enough to be interesting, there was no eruption, and that although there had been a couple of slight earth tremore at Hilo, there was nothing that approach-

ed the digulty of an earthquake. ANOTHER SUDDEN DEATH .- On Thursday night last, Mr. James McShane, an estimable and well known citizen, and a particularly steady and Industrious man, was suddenly stricken down by the hand of death. Disease of the heart was the cause, as was ascertained by a post morten examination. Mr. McShape was an Englishman by birth, of about 46 years of age, and leaves a wife and a large family of children. By a happy forethought, Mr. McShane, some time ago effected an insurance on his life for one thousand

A CHINESE MISSIONARY.-It is not generally known that we have among us a Chinaman, a professed convert to the Protestant religion, who goes about among his countrymen on the plantations and elsewhere, preaching and teaching his new-found faith. He intends, as we learn, to make the tour of Oahu, as he has recently done on Hawali, visiting in succession the different plantations where Chinamen are employed, exhorting and adneer Mills, \$12 70; 47 kegs Kolon, \$12 672; 55 kegs Waikapu, \$12 50; 50 kegs Lihue, \$12 55; 28 kegs dark, \$11 75@12 2 100 lbs. vising. It appears that he is already a prisoner, having an unexpired term of three months to serve under a conviction for horse-stealing. to three years' imprisonment and to pay a fine of \$5. A sharp transaction for a native. ALMOST LOST AT SEA .- On Saturday the 6th last, the schooner Warwick left Hono-Iulu, bound for Molokal, with a number of native passengers, and one foreigner-the Rev. Mr. Forbes. She reached the same day to the leeward of Lanal, near the precipitous bluff called by the natives, "Kapaliokaholo." There she was becalmed, and the next morning had drifted so far to the leeward that no land was in sight. Thus she drifted about for three days, food and water getting very short. The bark Mauna Loc, bound South, fell in with them, and taking off the passengers, whom she landed at their destination on Molokai, gave the master of the

schooner such sailing directions as enabled him to steer for Honolulu, which port he re-

entered on the 10th inst.

WASHINGTON'S BIRTHDAY, -The one hun dred and thirty-seventh anniversary of the birth of the Great Washington, whose memory every nation and people delight to honor, was observed on Monday last, Feb. 22, by the display of bunting from that on Punchbowl hill battery, most of the foreign conulates, and flag-staffs on private premises, besides those of the shipping in port. At, or about noon, in the auction room of C. S. Bartow, some refreshments were spread, when the memory of the Father of his Country was drunk, standing, with uncovered heads. It may not be generally understood, among our readers, that by a late act of Congress, the 23d of February, as the anniversary of Washington's birth, has been unde a national holiday of the United States. On one anniversary of the birth of the "Father of his Country," some years ago, it was remarked that the people of the United States were and ought to be proud of Washington, as their countrymen. The late General Miller, formerly British Consul here, immediately responded in his bluff but gentlemanly manner, "Sir, General Washington-was an Englishman, and a good deal of such a one as Oliver Cromwell. He was simply a
